

Benefits and Study Tools

ExamFX tries to cover every type of learning. Whether you learn better by listening to videos, reading, or interacting with an instructor, we have those options available.

Study by Topic **(Now CHAPTERS)**: Go through each chapter of the study by topic. You can select practice questions throughout the reading material and a question will generate over the material you just read. Take your chapter quizzes and work towards 70% or better score before moving on to the next chapter. If you do not pass on the first few tries, go back into the material and re-read before attempting again. This will help to ensure that you have the material down and are ready to move forward to the next chapter.

Once you have completed all your reading and chapter quizzes, take a Simulated Exam **(Now Practice Exam: Exam Mode)**. This will give you a good idea of where you are at regarding the state exam.

Once you have completed a Simulated Exam, a Focused Review will generate. Go through the Focused Review, as you select each topic, it will take you directly into the material where you need to study instead of re-reading the entire chapter.

If you scored between a 40% and 70% on the Simulated Exam, a Focused Exam would generate within the Focused Review. Once you have completed the Focused Review, take the Focused Exam. It will have questions that directly relate to the material you missed. You will only be able to take it once.

Once you feel confident that you have covered all the material and have scheduled your state exam, take the Guarantee Exam **(now Readiness Exam)** within 3 days prior to your state exam. You only have 2 chances for the Guarantee Exam. This exam will be a different question bank and will help you continue to prepare for your state exam. If you score an 80% or better on the Guarantee Exam within 3 days of taking your state exam, and for any reason fail the state exam, we will refund the cost of the course with a copy of the state testing results.

Additional Study Tools

Instructor Led Webinar – this will be available within the Live Online Study packages and gives you access to a 2-day webinar over the basics on the line of authority you are studying for (state specifics are within the course itself). Once registered for a class, you also receive access to the live online training workbook.

Learn as you go quiz **(Now Practice Exam: Learning Mode)** – this will be unlocked throughout the entire course; you can take this at any time just to see how you are doing.

OnDemand Videos – on the main menu you will have a tab that says OnDemand Video Library, this will give you access to additional videos broke down by chapter and concept

Online Flash Cards – flash cards by chapter, found on main menu
